BUSINESS MEN PROPOSE PEACE

New York Chamber of Commerce Starts Big Agitation for Arbitration of European War—All U. S. to Be Interested

A business man's plan for settling the great strife in Europe has just been received by the chamber of commerce here. It is the plan of Charles L. Bernheimer, chairman of the committee on arbitration of the chamber of commerce of New York.

On the basis that public opinion "is the only engine that can overcome the bitterness and antagonism of the warring nations", Mr. Bernheimer is proposing to enlist all the organizations of the United States in an immense campaign to force the world to recognize a peace commission, for the arbitration of the war.

A copy of the detailed plan, together with a letter from the originator, will be presented to the directors of the board of trade on Thursday at the regular weekly meeting.

Bernheimer's plan includes a "commission on immediate action", to be named by its chairman, the president of this nation. On this commission, there is to be a representative of each of the following ranks:

Diplomacy, labor, army or navy, agriculture, law, commerce, and one additional member, who may be a woman.

This commission is to confer with the state department of the nations at war and discover whether or not they will consent to the further proposals of the "plan". An international conference is to be called, to consist of seven delegates from each of the nations, selected from the same classes of life as the first commission. A council of nine is proposed, to consist of three delegates from the allies, three from the opponents and three from neutral nations.

The plan even goes into the possible form of a treaty of peace—although it does not attempt to dictate any of the terms.

FIRST OF MOOSE DANCE SERIES HELD AT HOME

Many Moose and Moosettes attended the first of the series of dances at the Moose home last night. It was the inauguration of a long line of 12 weekly hops, and as a starter, it was all that could be desired.

The hall was nicely decorated, and the music of the best, and everybody had the salubrious good time that everybody went there to have. The committee was much encouraged at the success of the dance. Once a week, hereafter, for the next eleven weeks, Tuesday night will be Moose dance night.

Allen's orchestra furnished the music.

of motorcycles; T. R. Palmer, president of the Continental Rubber Company, and vice-president of one of the largest banks of Erie, Pa., and James Mead, of Pasadena, Cal.

Opening of the Central bank, which had been planned for Monday, was held up pending the arrival of the lithographed checks and material. This arrived last night on a late train, and everything is in readiness for the opening this morning. The furniture and fixtures owned by the Union Bank and Trust Company have been purchased by the new bank, and the quarters at 20 North Central avenue leased for a term of years.

A policy of careful commercial banking, will be followed by the new institution. A savings department will be established. Papers of incorporation of the branch office of the Anchor Trust company have been drawn up, and will probably be filed this week.
